

NEUTRONLUB

THE BEST HI-TECH FLUID & COMPOUNDS - USA

NEUTRON 073 S

Synthetic Industrial Open Gear and Cable Lubricants

Semi-Liquid Adhesive Lubricating Compound

NEUTRON 073 S is A semi liquid highly adhesive lubricant compound formulated from high viscous base oil + bitumen additive and special adhesive additive.

Anti rust and corrosion properties. A superior water wash-out resistance lubricant.

Designed for lubricating of open gears, cables, chains, high load & low speed gears, sugarcane mills, etc.
